3ft x 8ft	\$100.00
4ft x 8ft	\$125.00

*These are most popular sizes. We can do as large as 6ft x 20ft*

## Vinyl Banners

- Our resilient banners can be used indoors and outdoors. They are made to withstand harsh weather conditions such as wind and rain.
- Choose our Glossy media for a shiny and bright banner or our Matte media for a subtle look. Our Mesh banner is suitable for windy outdoor conditions.

## MATERIALS

10 oz.

### Premium Mesh Vinyl

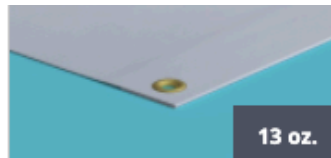

Our Mesh Vinyl is a great solution for windy outdoor conditions. This material is perforated, which allows enough air-flow to ensure the banner remains steady and undamaged in conditions where there are high winds. Please note that since the material has small holes, your design and colors will not look as saturated as on non-perforated vinyl. In addition, due to the perforation, the banner will not be completely opaque.

13 oz.

### Premium Scrim Glossy Vinyl

Our thick and tough Glossy Vinyl is shiny and attractive both indoors and outdoors. This Vinyl is durable and long-lasting. Scrim is commonly referred to as gauze, a type of strong, coarse cotton material made with a rectangular weave. It is a very light textile made from cotton, or sometimes flax. All of our banners are printed on fire-retardant media.

13 oz.

### Premium Scrim Matte Vinyl

This vinyl has a smooth, matte surface and is thick and sturdy. The non-glossy surface is ideal for a more subtle look. The material has a high endurance and can be used both indoors and outdoors. Scrim is commonly referred to as gauze, a type of strong, coarse cotton material made with a rectangular weave. It is a very light textile made from cotton, or sometimes flax. All of our banners are printed on fire-retardant media.
